

## BUYER'S GUIDE TO TELEHANDLERS

For a review of all the new and improved machines in this year's guide, visit [fwi.co.uk](http://fwi.co.uk)

Model	Max lift height	Max lift capacity	Lift to full height	Boom cushion	Hydraulics (litres/min)	Engine output; make	Transmission ranges and drive	Transmission top speed	List price (ex-VAT)
-------	-----------------	-------------------	---------------------	--------------	-------------------------	---------------------	-------------------------------	------------------------	---------------------

**Note** no info = no information provided. n/a = feature not available. std = standard. opt = optional. Hydraulics F = fixed output gear pump; V = variable output piston pump. Transmissions: MS = manual shift with torque converter; PS = powershift with torque converter; PSD = powershift direct drive (no torque converter); 1 H = single-speed hydrostatic; 2 GH = two-speed gearbox hydrostatic; 4 GH = two speed gearbox plus two-speed hydrostatic; 2 HH/3 HH = two- and three-speed all-hydrostatic drive; SRH CVT = single-range hydrostatic continuously variable; HM CVT = hydro-mechanical power split continuously variable; xxkW 1 M = single-speed electric motor mechanical drive; xxkW 1 H = single-speed electric-powered hydrostatic drive; xxkW 2 or 3 HH = electric-powered multi-speed hydrostatic drive. Prices: tbc = new model price to be confirmed; poa = manufacturer has not provided a price. Imported machine prices subject to prevailing exchange rate.

*Note: Torion 738T Sinus lift capacity is tipping load when fully articulated. Scorpion features include Smart Rooding auto engine speed management, four-mode electronic steering selection, optional joystick movement-related Dynamic Power and electronic throttle creep function. Standard auto bucket/fork return-to-dig plus optional auto boom retract while lowering. Base Varipower transmission (Scorpion 746) has 45deg wide-angle hydrostat; Varipower Plus (Scorpion 756, 848 and 960) adds 32deg variable displacement motor for increased tractive power. Varipower 2 is on Scorpion 638, 733, 1033. Varipower 3 (Scorpion 738 and 742) has twin hydraulic motors for greater power sharing a swash plate and two-ended output shaft (to eliminate reduction gears) within a single zero lubricant casing. Previous Scorpion 635, 732, 736 and 741 models have been replaced by 638, 733, 738 and 741 models respectively.*

*Note: V CP - hydrostatic drive, compact chassis (low height cab); PS+ - powershift with inching function; V - regular hydrostatic drive; V+ - twin motor hydrostatic drive with auto functions; L - front axle based hydraulic machine levelling. Air conditioning and easy connect system standard on Premium, Elite and Platinum versions. The Manitou Smart Weighing System is a new option currently only available for the MLT 841. Capable of static and dynamic weighing with the boom in any position, it operates through the in-cab 7in display as well as the myManitou app.*

## MASSEY FERGUSON

Offset cab, selectable two/four-wheel steering

*Note: All models have semi-crab steering mode with operator-set rear-wheel angle and steering via the front wheels in addition to full crab, four-wheel and two-wheel steering. Models with four-speed transmissions have two mechanical gears and two hydrostatic ranges. Efficient specification adds selectable independent ground/engine speed control, auto boom suspension, auto reversing engine cooling fan, heated air seat, audio upgrade. Exclusive adds hydraulic implement attachment, boom float and bucket shake, auto third hydraulics function with adjustable flow/timer, pre-wiring for fourth/fifth functions, armrest-mounted joystick, air conditioning, 7in colour display for settings and audio, side window washer/wiper.*
